FOR IMMEDIATE RELEASE

PORTABLE DEGASSING SYSTEM SELF-CONTAINED FOR USE ANYWHERE

A portable degassing system that is fully integrated and self-contained on a cart for small batch processing applications in pilot plants and laboratories is available from MV Products of North Billerica, Massachusetts.

The [MV Portable Degassing System](#) is a totally self-contained cart featuring a 15-gallon chamber with perforated shelves, a clear Lucite[®] top, rotary vane vacuum pump, inlet and exhaust traps, plumbing, gauges, and controls. Designed to be easily transported within a facility, this portable system can be used as a small process chamber for any vacuum application.

Ideal for degassing adhesives, epoxies, potting compounds, urethanes, and resins, the [MV Portable Degassing System](#) is available with capacities from 15 to 50 CFM and pressure ranges from 15" to 29.9" Hg (<1 TORR), depending upon the vacuum pump selected. A variety of standard options are offered and the firm can build systems to meet special customer requirements.

The [MV Portable Degassing System](#) is priced from \$6,595.00 (list). Literature and pricing are available upon request.
