VACUUM PUMP INLET TRAP

WALL MOUNT BRACKET FITS ANY LABORATORY

A low-cost, vacuum inlet trap that is designed to prevent pump failures in smaller laboratories and features a new, optional wall mount bracket is being introduced by MV Products of North Billerica, Massachusetts.

The [MV Visi®Trap Vacuum Inlet Trap](#) has a clear sump for visually monitoring filter condition and accepts a variety of replaceable filter elements for trapping foreign materials that could damage the pump. Suitable for pumps up to 20 CFM, this see-thru inlet trap can adapt to different processes and is now offered with an optional wall mount bracket for easy installation.

Available with all popular port terminations, the [MV Visi®Trap Vacuum Inlet Trap](#) can be supplied with copper gauze, stainless steel gauze, molecular sieve, Sodorb®, activated charcoal, activated alumina, and PolyPro 2-, 5-, and 20 µm filter types to protect pumps from particles, acids, solvents, or water vapor. Other options include a dial gauge assembly and vent valve.

The [MV Visi®Trap Vacuum Inlet Trap](#) is priced from \$95.00, depending upon the filter media selected, and the wall mount bracket is \$65.00. Technical specifications are available at www.massvac.com/html/prod_visi_trap.html .
