PORTABLE DEGAS SYSTEM

PULLS 29" Hg VACUUM IN SMALL FOOTPRINT

A new portable degas system that features plug and play operation and is sized and priced for research labs and small batch production applications is being introduced by MV Products of North Billerica, Massachusetts.

The MV 4-Gallon Portable Degas System features a 4-gallon stainless steel chamber, a clear 1" thick Lucite[®] top for contents viewing, and a dry piston 5 CFM vacuum pump that pulls 29" Hg vacuum. Easy to move and store, it is totally self contained in a 20" sq. mobile cart and operates on 115V power.

Suitable for degassing, encapsulating, potting, and drying applications, the MV 4-Gallon Portable Degas System includes a 0-30" Hg Bourdon dial gauge, isolation- and vent valves, and an on/off power switch. Options include other types of vacuum pumps and a rotary motion feed-through.

The MV 4-Gallon Portable Degas System is priced from \$5,495.00 and can be built to customer specifications. Pricing is available upon request.
